EXPERIENCE

Software Engineering Intern

LiveRoom Technologies | Jan 2024 – Jul 2024

- Dhaibaworks: Contributed to enhancing DhaibaWorks by implementing real-time model updates in Nvidia Omniverse Presenter and enabling USD model exports, improving its integration with external 3D software.
- QBank DAM: Improved QBank's Adobe InDesign plugin by fixing download location bugs, adding asset update notifications, and developing cross-platform installers for enhanced functionality and user experience.
- Technologies: C++, USD

EDUCATION

Bachelor of Science Honors in Information Technology

University of Moratuwa | 2021-2025

- GPA: 3.04

G.C.E. Advanced Level – Other Stream

Nalanda College, Colombo | 2017-2019

- Combined Mathematics(A), Physics(A), ICT(A)
- Z-Score: 2.775

PROJECT

Final Year Research – AI-Based Tourist Destination Chatbot

- Developing an AI-powered chatbot for a Sri Lankan travel guide, focusing on selecting the most accurate responses to user queries. Utilizing a pre-trained model for chatbot development, integrating data from a personalized recommendation system and a review summarization system. Researching chatbot accuracy and relevance in travel recommendations.
- Role - Chatbot Developer
- Technology - Python, Machine Learning, Pre-trained Language Models, Rasa NLU

SUMMARY

I am a passionate and self-motivated recent graduate with a strong drive to learn new technologies in the IT field. I embrace challenges proactively and strive to achieve my targets. I am enthusiastic about applying my knowledge and skills to contribute to an organization's growth and success as a Full Stack Developer.

Technical Skills

- Languages:
 - Java
 - Python
 - JavaScript
- Frameworks & Libraries:
 - React
 - Next.js
 - Node.js
 - Bootstrap
 - Material UI
- Databases:
 - MySQL
 - MongoDB
- Tools & IDEs:
 - VS Code
 - IntelliJ IDEA
 - Figma
 - Postman
 - Cisco Packet Tracer
- Version Control:
 - Git

Non-Technical Skills

- Teamwork
- Adaptability
- Time Management
- Willingness to Learn

PROJECT

Second Year Project - Writer Gate Blog Writing Website

- Writer Gate is a blog writing website that enables users to both read and write articles. In addition to providing a platform for reading and writing, this website offers topic suggestion tools to help writers select more engaging topics for their articles.
- Role - Full-stack Development (reader, search articles)
- Technology- NextJS, NodeJS, MaterialUI, MongoDB
- GitHub

Individual Project – LearnLife

- LearnLife is an e-learning website equipped with an LMS. Both instructors and students can register on the platform. Instructors can create courses, while students can easily enroll in their preferred courses through the website.
- Technology- HTML, Bootstrap, PHP, JavaScript, AJAX
- GitHub

Certificates

Second Year Project - Writer Gate Blog Writing Website

- Comprehensive Master Java Developer Diploma – IJSE [Link]
- CCNA Modules 1, 2, 3 – Cisco Networking Academy [Credly]

INTERESTS

- Cricket
- Gaming
- Movies
